# STUDY INTERNATIONAL BUSINESS AT LA SALLE EMCI ST-ETIENNE IN THE HEART OF FRANCE !

## Presentation

La Salle EMCI is a business school with more than 30 years of expertise in International Trade Relations courses. Our undergraduate International Business programme is aimed at students who want to discover the world of business from a fresh perspective in another country.

La Salle EMCI is part of the international LaSalle network with universities in 80 countries. We have exchange partners in 15 countries and up to 40 students studying abroad each year.

## Study in Saint-Etienne

- La Salle EMCI is a part of Campus LaSalle, located in the center of Saint-Étienne in France
- The city of Saint-Étienne annually welcomes over 30000 students enrolled in higher education. The city's student office organizes a freshers' programme of student activities to discover the city, its museums and surrounding area, as well as parties to meet other students from different institutions.

## Course content

Courses are delivered in English or French depending on student's level. A specific module which includes French as a foreign language and French culture will give foreign students a good grounding in the French language and different aspects of French culture.

Class sizes are small for an optimal learning experience. Most classes are mixed with French students.

Our course offer includes international negotiation, cross-cultural management, AI, project management, geopolitics, import & export development strategy... see our course catalogue for full details.

Our Spring semester includes an internship in a local company to gain hands-on business experience.
